Skills

- ☐ Web Development
- ☐ JavaScript
- ☐ React
- ☐ Python
- ☐ PostgreSQL, MongoDB, SQLite

Languages

- ☐ English
- ☐ Polish
- ☐ Russian
- ☐ Ukrainian

Vadym Zelenko

Full-Stack Developer

Versatile and detail-oriented *Full-Stack Developer*. Skilled in **Python (Flask, Django, FastAPI)**, **JavaScript (React, Node.js)**, and experienced in **Docker, MongoDB, Redis, OAuth2**, and **RESTful APIs**. Passionate about creating clean, maintainable code and delivering real-world projects. Fast learner with a strong focus on performance, user experience, and code quality. Also play guitar and love chess.

Experience

Worked on projects such as an online compiler using technologies such as **FastAPI, Docker, Redis, Celery, React**. Implemented safe code execution in an isolated environment, asynchronous task processing with Celery, and built a user-friendly user interface on React.

Also created an online game with authorization via **Google** and **GitHub** using **OAuth2**. The project used **MongoDB** to store player data and **React** to build a dynamic interface. Implemented a leaderboard, session authorization, server connection, and real-time game results storage.

Technologies

FastAPI, Flask, React, Node.js, Docker, Redis, MongoDB, Cloud Platforms, Celery, OAuth2

Education

Kharkiv National University of Radio Electronics
Bachelor's Degree in **Automation and Robotics** (2021 - Present)
